

## **Eurotunnel**

### **Apprentice Technician**

#### **Starting Salary £16k per annum and attractive benefits package**

Earnings will rise progressively throughout the apprenticeship depending on performance.

Eurotunnel manages, maintains and operates the Channel Tunnel Fixed Link Concession between Folkestone and Coquelles, France. Opened on 6 May 1994, the Fixed Link is a rolling motorway which transports passenger and commercial freight vehicles on board Shuttles across the Channel at 140kph, in 35 minutes. It also allows the running of third party passenger and railfreight trains. The advantages of the Channel Tunnel are security, reliability, speed, frequency and respect for the environment.

An innovative rail company and responsible infrastructure manager, Eurotunnel is part of the Getlink group and is a leading stakeholder in the economies around Kent and Calais, contributing to the dynamism of the regions surrounding its operations. As a responsible employer, the Getlink Group is committed to providing a working environment that fosters personal development and fulfilment in order to attract and retain good and qualified staff.

In 2018, Eurotunnel Shuttles carried circa 1.7 million trucks, and 2.6 million passenger vehicles and facilitated the transportation of just over 1m tonnes of freight and some 11m Eurostar passengers. The Channel Tunnel facilitates trade worth circa £91.4bn per year, representing a quarter of all UK trade in goods with the European Union.

Eurotunnel is launching an engineering apprenticeship which will offer a unique opportunity for anyone looking for a career within the railway industry. As one of the most recognised engineering achievements of the modern world Eurotunnel offers a unique training environment.

You must be able to demonstrate your passion for pursuing a technical career path, display the expected company ethics, values and behaviours and be committed to becoming part of a fully integrated engineering team.

The apprenticeship will provide successful applicants with a City & Guilds qualification and industry specific work experience supported by our highly experienced Technicians and Engineers.

Individuals will need to express their talent for practical subjects, interest in learning how systems and equipment operate and most of all their commitment and enthusiasm to learn. As a minimum you must have GCSE's at grade C or above in Maths, English and a Science or Technical subject.

In return for your contribution you can look forward to:

- A nationally recognised qualification in Engineering
- Great career prospects
- A competitive salary while you learn
- An attractive benefits package

Eurotunnel is committed to equal opportunities.

For further information regarding this exceptional opportunity and how to apply please visit <https://www.findapprenticeship.service.gov.uk/apprenticeship/-406213>

The first stage of the recruitment process will require you to attend an open day at Dover Technical College on **Saturday 27 April 2019** or be screened by them on a one to one basis.

For more information about the role and open day, please contact Emma Loane, Business Development Manager on 01227 811315 or via email [Emma.Loane@eastkent.ac.uk](mailto:Emma.Loane@eastkent.ac.uk)
